

Rebecca Hare

I graduated as a biologist but moved into IT, starting as a programmer and subsequently Business Analysis and Project Management. Mid-career I decided to retrain as a Primary School teacher working at Oliver's Battery. After ten years of education I returned to IT in Operations working for small start-ups.

I have lived in Oliver's Battery for 15 years and was co-opted onto the Parish Council two years ago. I work on the website, am the tree warden and want to help make Oliver's Battery a real community.
