

I moved to Winchester and the UK in 2006 and in Oliver's Battery in 2013. I'm Italian from Belluno, the heart of the Dolomites in Italy (North of Venice). I'm the proud father of three amazing and incredible girls.

I'm a senior executive in the digital and personal data industry and an entrepreneur in the outdoor and hospitality industry. I help teams to create and execute successful new and complex digital business opportunities across different markets, cultures and priorities. I operate both at strategic/vision as well as tactical/operational level.

As a corporate and start up professional I understand that we work hard and we are too busy to enjoy the beauty around us. I am excited to constantly discover and enjoy our outdoors (even the ones around the corner) and to create strong communities.

I enjoy working as a councillor for Oliver's Battery. I believe the strongest insights and achievements are accomplished through shared human experiences. I love living in Oliver's Battery and I want to give back to my local community by creating a stronger and healthier community.
