

## Tree Warden report 31<sup>st</sup> May 2023

There is little to report following a quick check on all areas. At the Battery, there are a couple of small dead trees but they are causing no nuisance. At the Rec area, some cutting back might improve access (pictured left by the lower south tennis court). This could be done at any time. There is also a small tree on the LHS (north) close to the entrance (pictured right below), not on our land, but causing damage to the fence. Might talk to the owner as it needs to come down.
