

Website: <https://repaircafewinchester.org>

We are now up and running with a wonderful team of volunteers. Up until July we have had 67 visitors at Badger Farm Community Centre and Unit 12 Winnall. 549 hours have been volunteered and we have already prevented 2,799 kg of CO2 emissions.

Mends include darns in jumpers, wooden boxes, musical instruments, and numerous types of electrical goods. No fix is too small so do think of us before putting your items in a bin.

We run monthly normally on the second Saturday of the month. Our next date is 9th September. In October as it is International Repair Day we are moving our event to 21st October.

For any booking visit our website above.

If you want to learn more about Repair Cafés come to our Green Week event on 5th October (6.30-8.30pm) at St Peters Catholic Church, Jewry St, Winchester SO23 8RY

We'll reflect on the benefits of a Repair Café, how we started, how it's going, how it works, our hopes for the future and how other organisations can get involved with our aim to get Winchester repairing!
