

Recreation Ground Report For Council Meeting on 09 January 2024

Agenda Item 7.1

During a recent inspection of the recreational ground Cllr. Leigh-Jones inspected the play equipment and found everything in great working order. The only issue noticed was missing bolt caps (the plastic caps placed on metal bolts/nuts to protect users). See images:

Agenda Item 7.2

I have received the checklists from Grass and Grounds for the month of December and can confirm the checklist (along with the status of the Defib) comes up with no issues to report.

Agenda Item 7.3

The following Has been completed during December:

- * Recreation Ground Play Equipment where applicable painted with 2 coats of non-slip stain.

Planned for January:

* Protective staining of the 4 new plain wood benches in the Recreation Ground. With the equipment available 2 benches can be worked on at a time but each pair require 3 days without rain and temperatures above +5C.

* Leaf clearance from paths around school - planned for Friday 12th January.

Note: During visits to the Recreation Ground during brief periods of reasonable weather it has been encouraging to see that the new furniture has been well used.
