

## **Oliver's Battery Parish Council Meeting 6 February - Agenda item 7.4**

### **All Inclusive Recreation Ground Project**

#### **Progress Report – February 2024**

##### Football Pitch

The new smaller football pitch has recently been lined out at the Recreation Ground. The old goalposts will be removed and new goalposts installed soon.

##### Tree Watering

A member of the Handyperson Group has obtained the agreement of the owner of the allotment next to the Recreation Ground that the water carrier can be stored temporarily in the allotment area.

The location agreed is next to two medium sized trees, well away from the gate. The water carrier will need to be secured and accessible by a number of volunteers.

It has also been agreed that the water carrier will stay in Cllr Kirkby's garage until it is required in March.

##### Recommendation

The PC purchases a chain/security cable and combination padlock, not exceeding £25.
