

Recreation Ground Report For Council Meeting on 05 March 2024

Agenda Item 7.1

The mains water supply tap at the recreational ground has been repaired.

It is apparent the new smaller size goals are receiving great amounts of use. At some point we may need to consider the storage and maintenance of the nets (particularly in the summer holidays).

Cllr Kirkby has sent through photographs evidencing that some of the plastic caps that cover bolt heads and nuts need replacing. Also some nail heads need to be hammered flush with wood in sections of the play equipment.

Agenda Item 7.2

I have received the checklists from Grass and Grounds for the month of February and can confirm the checklist (along with the status of the Defib) comes up with no issues to report.

Agenda Item 7.3

No report has been received from the Handyperson group for works completed in February.
