

Tree Warden report

The agreed work was done by Merritts on Feb 15th. However, after some discussion the cherry tree was not taken down. I also pointed out some possible trimming of the very tall trees bordered OBRS. That will require special permission and closure of the parking spaces. It's not urgent, so next winter should be OK. I think all the adjoining properties should be contacted beforehand, also inviting any comment. I would strongly prefer to stay with Merritts for future work.
