

## **Recreation Ground Report For Council Meeting on 02 July 2024**

### **Agenda Item 7.1**

There are several tasks outstanding in relation to the annual play inspection and some of the work that is necessary as a response to that document. SLJ still has to collate the high risk (and other items) that we believe can be completed by Infinity Playgrounds on our behalf, and submit those via email (with pictures). There are also several, less demanding, tasks to be completed by the Handyperson group and SLJ that still need to be communicated and completed. SLJ will seek to communicate delegated tasks asap.

### **Agenda Item 7.2**

I have received the checklists from Grass and Grounds for the month of June and can confirm the checklist (along with the status of the Defib) comes up with no issues to report.

### **Agenda Item 7.3**

June has seen very little accomplished because of weather and holiday commitments. The speed warning device in Old Kennels Lane has been kept operational and the organisation for watering of the new trees on the Recreation Ground has been monitored.

Plans for July, weather permitting, is the half yearly application of non-slip stain on the play equipment and staining the 3 bare wood benches in the Rec. Plus continuing the watering programme.
