

No Dogs Signage for OBP Recreational Ground

The reason there is, potentially, a need to invest in the placement of 'No Dogs' signs at the Parish recreation ground is that there are an increasing number of dogs being brought into the rec. These dogs have been spotted by Parish Council members and others, both in the playing fields and down at the play area/MUGA of the rec.

There is signage communicating the message currently but it appears this is insufficient (There are three signs currently in place).

New Sign Locations

It would be best to determine the most appropriate/effective locations for signs by considering the photographs below:

Recreational Ground Entrance

Car Park Boundary by Gate

Car Park Boundary by Path

Adjacent to Path

Along Path

Of the above highlighted areas we should consider which is most appropriate (there may be a need to place an additional sign at the entrance from the wildlife area).

The above is a quote for three A3 Aluminium (3mm) signs. I am not certain that this price is guaranteed but would suggest it will not be more than £50-£55 (exc. vat) for the three.

Note: The above price does not include any poles which may be necessary for the placement of the signs (and labour costs of inserting/securing them).

Recommendations: Determine best location for new signs if any. Collect quotation from *Infinity Playgrounds* to source and install steel poles if necessary. Purchase necessary A3 signs (number as determined by OBPC).
