

To receive update on Traffic Regulation Order for Oliver's Battery Road South/Old Kennels Lane

The following is based on the article in the December edition of the Ob-Server:

The parking restrictions saga relating to Oliver's Battery Road South up to and including the beginning of Old Kennels Lane continues.

After chasing Hampshire County Council for the date of the start of the public consultation, I received the following update from the Principal Engineer - Traffic Team (East Hampshire & Winchester):

Thank you for your continued interest. The traffic order documents have been drafted, and the proposal is now with the team who write the legal Orders. Please note, they have a high workload as they cover the whole of Hampshire. Once I know the public consultation dates I'll let you know them by email. As usual, the notices will be put up on street when the public consultation for the proposal starts.
